

PFISR/RISR Status

**John Kelly, Director
Center for Geospace Studies
SRI International**

UAF Meeting, Millstone Hill Observatory, Sept 23, 2008

PFISR

PFISR Operations

- Operating at ~ 1.6MW
Trade off between maintenance and operations.
- Air Force RFI testing postponed as result.
- Anticipating Rocket Season, 2009.
 - Discussions with NASA should result in elimination of RF avoidance periods during count downs (except when arming is occurring)
 - Possible coexistence with telemetry during flights.
- Decreased IPY hours.

RISR

RISR Operations

- Cabling completed Oct. 20,
- RF instrumentation installation completed Nov. 1
- Calibration, debugging, testing completed Dec1.
- First operations.....
